ASHISH KUSHWAHA

Frontend Developer | React.js | React Native

Aspk209401@gmail.com | +91-9510199208 | linkedIn | Portfolio | Kanpur, U.P., India

PROFESSIONAL SUMMARY

Fromend Developer with expertise in React.js, React Native, JavaScript, HTML, CSS, and Tailwind CSS, dedicated to building modem, responsive, and high-performance applications. Passionate about crafting exceptional user experiences through dean code, imeractive interfaces, and continuous innovation.

TECHNICAL SKILLS

Languages: C, Java, Python, JavaScript, HTMM, CSS3
Frameworks & Libraries: React.js, React Native, Tailwind CSS, Bootstrap S
Tools **& Technologies:** Arduino, Embedded Python, EMG Sensors, Git, VS Code
Domains: Frontend Development, UI/UX Design, Responsive Web Design, API Integration, CRM Systems

EXPERIENCE

Frontend Developer Intern | Prodesk IT | Jul 2025 — Ongoing

- Technologies using React.js, Redux, JavaScript, Jest, React Testing Library (RTL), Git, HTML5, CSS3, Tailwind.
- Working with a React-based web application, integrating REST APIs for dynamic data handling, using Redux for centralized state management, and implementing Jest with React Testing Library (RTL) to test reusable components, API-driven workflows, user interactions, and state updates.

Frontend Web Development Intern | Cognifyz Technologies | **Jul 2025—** Aug **2025**

- Implemented responsive UI/UX components using HTMLS, CSS3, JavaScript, and Bootstrap 5, improving page interaction metrics by ~30%
- Developed and optimized 5+ interactive frontend modules for real-world client-facing applications
- Collaborated with senior developers to align frontend architecture with modern web development standards

Team Leader — Tech & Innovation | FusionX Student Team | Jun 2025 — 2026

- Led a 5+ members high-performance student tech team, coordinating end-to-end planning for events and competitions
- Conducted post-event evaluations, improving team delivery timelines by 20%

ACADEMIC PROJECTS

NeuroPalm — Real-Time Prosthetic Hand | Hardware-Software **Integration, 2025**

- Designed and built an Arduino-based real-time muscle-controlled prosthetic hand using EMG sensors and servo motors
- Won Consolation Prize at Gandhigiri Technical Event, Axis Colleges, Kanpur (2025)

India Innovates CRM Portal | *Full-Stack Hackathon Project* 2026

- Built a full-stack CRM portal with frontend, backend, and database for customer and lead management during national hackathon

HiFi — Real-Time Social Networking Mobile App | *React Native, REST API, WebSocket 2026*

- Developed a cross platform mobile application using React Native, Nodejs and WebSocket-based real-time communication with a responsive, performance-optimized UI.

EDUCATION

B.Tech. — Computer Science Engineering | Axis Institute of Technology & Management, Kanpur (A.K.T.U) | *2024-2028*

Higher Secondary (12th) | SSBS Inter College Pali, Kanpur | *U.P. Board,* 2022-2023

ACHIEVEMENTS

- 2nd Place — Byte the Bug Debugging Competition, IDAA Annual Fest, Axis Colleges (2024)
- Consolation Prize — NeuroPalm at Gandhigiri Technical Event, Axis Colleges (2025)
- Hackathon Participant — India Innovates (202d): Built full-stack CRM portal under time constraints
- Competitive Programming — Code Catalyst & Code2Debug; strengthened algorithmic thinking and debugging skills

CORE COMPETENCIES

Team Leadership • Problem Solving • Time Management • Cross-functional Collaboration
