ASHISH KUSHWAHA

Software Engineer | Full-Stack Development

aspk209401@gmail.com | +91-9510199208 | Kanpur, Uttar Pradesh, India | GitHub | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Computer Science undergraduate with practical full-stack experience across React/Next.js front ends, Node.js back ends, and WebSocket-based real-time features, IoT and hardware-software projects. Writes tested code (Jest, React Testing Library) and builds problem-solving skills through competitive programming. A quick learner with strong communication and problem-solving skills, leadership qualities, adaptability, teamwork, and a proactive approach to taking initiative and learning new technologies.

TECHNICAL SKILLS

Languages: Java, C, JavaScript, TypeScript, Python (CRM Portal, Movie Recommender)
Frontend: React.js (Prodesk IT, Flutter Kanpur), Next.js (Flutter Kanpur), React Native (HiFi), Redux (Prodesk IT), HTML5, CSS3, Tailwind CSS
Backend & APIs: Node.js (HiFi), REST APIs (Prodesk IT), WebSocket (HiFi)
ML & Embedded: Machine Learning (Movie Recommender), ESP32 (IV Bag Monitor), Arduino and EMG sensors (NeuroPalm)
Testing: Jest, React Testing Library (Prodesk IT)
Tools & Concepts: Git, GitHub, VS Code, Data Structures & Algorithms, OOP, Debugging

EDUCATION

B.Tech. — Computer Science Engineering 2024 – 2028 (Expected)
Axis Institute of Technology & Management, Kanpur (A.K.T.U.)

INTERNSHIP

Frontend Developer Intern — Prodesk IT Jul 2025 – Present
- Integrate REST APIs in a React.js web application and manage application state with Redux across reusable components
- Write unit and integration tests with Jest and React Testing Library to validate component behaviour and API-driven workflows

Frontend Developer (Contributor) — Flutter Kanpur Community Ongoing
- Developed features for the community's existing Next.js project (Flutter Kanpur Website 2.0) using React and MUI, implementing Figma designs for desktop and mobile

Frontend Web Development Intern — Cognifyz Technologies Jul 2025 – Aug 2025
- Built and debugged responsive UI components with HTML5, CSS3, JavaScript, and Bootstrap 5, improving page interaction metrics by ~30%
- Developed 5+ frontend modules for client-facing applications, collaborating with senior developers on frontend architecture

PROJECTS

IoT IV Bag Monitoring and Alert System ESP32 · HX711 Load Cell · Blynk
- Led a team, building an ESP32-based system that tracks IV fluid level with a load cell and alerts healthcare staff through a buzzer and Blynk notifications when it runs critically low

NeuroPalm — Muscle-Controlled Prosthetic Hand Arduino · EMG Sensor · Servo Motors
- Designed and built a prosthetic hand that converts EMG muscle signals into servo motor movement, so a person without a hand can operate it like a real hand; presented at Gandhigiri 2025

India Innovates 2026 — CRM Portal (National Hackathon) HTML · CSS · JavaScript · Python
- Built a full-stack CRM portal for customer and lead management (HTML, CSS, JavaScript frontend; Python backend; database) within the hackathon's time limit

HiFi — Real-Time Social Networking App React Native · Node.js · WebSocket
- Built a cross-platform mobile app with a Node.js backend and WebSocket-based real-time communication, using React Native for a responsive UI

Movie Recommender Python · Machine Learning
- Built a movie recommendation system in Python using machine learning to suggest movies to users

ACHIEVEMENTS & LEADERSHIP

- 3rd Rank — Gandhigiri – Anveshak 2026, Axis Institute of Technology & Management (15 Oct 2026): IoT IV Bag Monitoring and Alert System, as Team Leader
- Consolation Prize — Gandhigiri 2025, Axis Colleges: NeuroPalm prosthetic hand
- 2nd Place — Byte the Bug Debugging Competition, IDAA Annual Fest, Axis Colleges (2024)
- Competitive Programming — Code Catalyst & Code2Debug: algorithmic problem-solving and debugging practice
- Team Leader, Tech & Innovation — FusionX Student Team (Jun 2025 – Present): leading a 5+ member student tech team; improved delivery timelines by 20%
